臺北市「內雙溪自然中心」環境教育推廣工作

何明育[1] 黃以方[2] 蔡正發[3] 黃書娟[4*]

摘 要 為因應全球環境教育發展趨勢、提供市民優質的環境學習場域及戶外遊憩體驗，臺北市政府工務局大地工程處自 97 年起開始規劃內雙溪自然中心朝環境教育場域發展，一方面藉以提升市民森林保育觀念，一方面作為市民休閒遊憩園區，同時成為國中、小學生戶外教學場域，是一臺北市兼具旅遊及教育功能之自然中心。

內雙溪自然中心位於臺北市士林區溪山里至善路三段 150 巷 27 號，土地面積約 7.2 公頃，是臺北市近郊最完整的森林區域，也是臺北市唯一一處森林型態的環境教育學習中心。為維持內雙溪自然中心長期穩定經營運作、營造專業環境教育學習場域，以中心特有的森林生態系，及其豐富的動植物、地質、水文環境教資源，訂定「森林樂活、大地共享」為內雙溪自然中心環境教育推廣計畫之核心精神，並且以「森林的多功能服務」為主軸安排及規劃環境教育課程。

關鍵字：內雙溪自然中心、森林生態、環境教育。

Promotion of Environmental Education in Neishuangxi Nature Center, Taipei City

Ming-Yu He[1] Yi-Fang Huang[2] Cheng-Fa Tsai [3] Shu-Juan Huang[4*]

ABSTRACT For adopting global environmental education developing trends, supplying civic more better environmental learning fields and outdoor recreation activities, GEO of Taipei City Government began planning Neishuangxi Nature Center towards an environmental education venue since 2008. Neishuangxi Nature Center is a field that combines travel and educated functions in Taipei, that can enhance civic forest conservation recognitions, be a recreation area for civic, and be a outdoor education venues for students in elementary and junior high schools.

Neishuangxi Nature Center located within Shilin District in Taipei City, that area about 7.2 hectares is the most complete forest in suburban area of Taipei City and is the only one forest environmental education learning center. In order to maintain the stability of long-term operation and build a professional environmental education venue, the operational goal of Neishuangxi Natural Center Environmental Education Promotion Plan is "Lohas in forest, sharing (the earth) with all creatures." For the purpose of the operation, multiple services of forest ecosystems are playing an important role in the environmental education courses here, so we take Neishuangxi local forest ecosystem, geology and hydrological environment resources into our courses.

Key Words: Neishuangxi Nature Center, forestry ecology, Environmental Education.
