

JOURNAL OF  
CHINESE SOIL AND WATER CONSERVATION

Vol. 52, No.3

September 2021

CONTENTS

Papers

1. Applying Portable Drilling Equipment to Explore the Characteristics of Surface Runoff and Shallow Groundwater along a Gully in a Natural Forest -----  
----- *Wei-Chen Hsiao, Wei-Li Liang*---- 121
2. From Exploring the Source of Rziha Formula to Evaluating Time of Concentration ----  
----- *Yen-Shuo Huang, Chia-Ning Yang, Ching-Ying Tsou, Su-Chin Chen*---- 135
3. Assessment of Probability of Failure on Rainfall-Induced Shallow Landslides Using a Fuzzy Point Estimate Method -----  
----- *Ya-Sin Yang, Hsin-Fu Yeh, Chien-Chung Ke, Nai-Chin Chen, Kuo-Chin Chang*---- 145
4. Assessment of the Potential of Groundwater Quality Indicators by Geostatistical Methods in Semi-arid Regions ----- *Mobin Eftekhari, Seyed Ahmad Eslaminezhad,*  
----- *Mohammad Akbari, Yashar DadrasAjirlou, Ali Haji Elyasi*---- 158
5. Impacts of Conservation Tillage and Crop Residue Management on Soil Properties: A Short-Term Trial in Iran----- *Sakineh Mazdarani, Mostafa Karimian Eghbal*---- 168

Technical Notes

1. Using the Geo-Spatial Interface for WEPP to Simulate Erosion and Deposition of Sediments in the Nanhua Reservoir Watershed ----- *Chin-Shou Lin, Hsing-Chuan Ho,*  
----- *Bor-Shiun Lin, Je-Yi Jhang, Ming-Fa Tsai, Po-Tsung Kao*---- 176
